

Fund Factsheet

UK FTSE 100 Index Tracking

As at 30 November 2011

Fund objective

To match as closely as possible, subject to the effect of charges and regulations in force from time to time, the capital performance and net income yield of the FTSE 100 index. The Halifax FTSE 100 Index Tracking Life and Pension funds invest directly into the Halifax FTSE 100 Index Tracking OEIC.

Investment approach

The fund is to invest primarily in companies and other securities comprising the FTSE 100 Index.

Fund managers commentary

A nine-day losing streak in the latter half of the month ensured UK equities finished November in negative territory. But co-ordinated action by the world's main central banks aimed at easing pressures in the global financial system boosted sentiment at the close. (As at 30 November 2011. Important notes: Past performance is not a guide to future performance. The investment's value and the income from it will fall as well as rise and may be affected by market and currency movements. You may get back less than originally invested. Cash on deposit is more secure, generally more accessible and provides greater certainty of growth.

Glossary

ABI Sector – The Association of British Insurers classification scheme for life and pension funds that share similar characteristics, e.g. Balanced Managed

Annual management charge – A charge taken from the fund sometimes referred to as yearly management charge. The charge is expressed as a percentage per annum but is normally taken daily from the fund

Asset allocation – The process of dividing investments among different kinds of asset classes such as stocks, bonds, property and cash

Benchmark – A measure against which the performance of a fund is compared. The benchmark could be an index for example the FTSE 100, or a sector average

Bid price – The price at which you can sell units of a fund

Bonds (Fixed Interest Securities) – A bond can be issued by either a company (corporate bond) or a government (gilt) and is a way of raising capital. Most bonds promise to pay a fixed rate of interest for a given period of time, at the end of which the holders are repaid the capital sum

Cumulative Performance – Represents total return over a given period

Discrete Performance – Represents individual yearly performance

Dividends – A portion of a company's profit paid to the shareholders

Equities – Commonly used term for shares in a company

IMA Sector – The Investment Management Association classification scheme for OEIC/ISA funds that share similar characteristics, e.g. Cautious Managed

Net Asset Value (NAV) – The value of an entity's assets less the value of its liabilities

OEIC (Open Ended Investment Company) – An OEIC is a pooled investment fund of variable size set up as a company. It owns investment assets, for example stocks and shares, gilts, bonds and other financial instruments. The size of an OEIC varies reflecting the market value of its underlying investments

Offer Price – The price at which you can buy units of a fund

Sector Average – The average performance of all the funds within a particular sector, for example the IMA Balanced Managed sector

Underweight/Overweight – Funds have a target allocation to a particular sector or asset type, for example a managed fund may have a target allocation to equities of 50%. If the fund holds 52% in equities it is said to be overweight equities. Similarly if the fund holds 48% in equities it is said to be underweight equities

Yield (Historical) – reflects distribution declared over the past twelve months as a percentage of the mid market unit price, as at the date shown.

Yield (Distribution) – reflects the amount that may be expected to be distributed over the next twelve months as a percentage of the mid-market price of the fund as at the date shown. It is based on the snapshot of the portfolio on that day.
